01

1. PROBLEM STATEMENT

When one teacher is responsible for three grades, the day becomes a coordination problem before it becomes a lesson.

THREE GRADES

One room, one teacher, three grades.

FRAGMENTED PLANNING

Three syllabi, no plan for her time.

MORE THAN TEACHING

Paperwork competes with teaching.

1,04,125	33.8 LAKH	36.4%	23.4%
single-teacher schools in India	children studying in those schools	of schools have 50 or fewer students	of Class 3 children read at Class 2 level

02

2. PROBLEM STATEMENT UNDERSTANDING

It is a time-and-visibility problem, not a content problem.

WHY IT HAPPENS

- **Attention is never planned** across grades.
- **No revision at home** after a topic is taught.
- **Gaps surface too late,** only in term exams.

WHAT EXISTING TOOLS MISS

- **No multi-grade planning;** they only share content.
- **No proof** of who truly understood.
- **Not built** for offline, low-end phones.

02 · FROM LESSON TO SUPPORT

FROM TODAY'S LESSON TO NEXT WEEK'S SUPPORT

3. PROPOSED SOLUTION

Veda connects planning, learning, revision and assessment in one simple portal, with the teacher always making the final call.

01
TEACHER PORTAL
One-tap attendance and marks, or by voice.

02
AI WEEKLY PLANNER
One grade taught directly, others do guided work.

03
CARDS + QUIZZES
Sent home the moment a topic is done.

04
AI STUDY COMPANION
A voice avatar that revises and answers doubts.

05
FEEDBACK LOOP
Early-warning alerts with a next step.

06
AUTO REPORTS
School-office reports in one tap.

MVP DEMO

Weekly plan › Topic done › Cards + quiz › Avatar chat › Test marks › Early alert › Plan adjusts

4. NOVELTY

Connects what was taught today to what each student understood tonight.

- **Multi-grade scheduling** of the teacher's time.
- **Cross-grade topic merging:** one session, three levels.
- **Class-to-home sync:** topic done triggers home revision.

5. INNOVATION

One feedback loop, with the teacher always making the final call.

- **Hybrid planner:** solver + LLM.
- **Textbook-grounded AI** that stays on syllabus.
- **Offline-first and voice-first** in local languages.

Made with GAMMA

03 · MARKET & IMPACT

BUILT FOR THE TEACHER WHO CANNOT LEAVE ANY GRADE BEHIND

6. MARKET RESEARCH

$103B India K-12 market (2025)

1,04,125 single-teacher schools to target

- **Built for multi-grade** rural classrooms.
- **Works offline** on shared devices.
- **Free for teachers;** funded by states, NGOs and CSR.

7. IMPACT

- **Less admin load** for teachers.
- **Struggling students** spotted early.
- **Revision at home** on family phones.
- **Target: 50% less** planning time.
